Allowable Subject Matter

1. Claims 1, 3 – 8, 10 – 15, 17 – 22 and 24 – 28 are allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The most remarkable prior art of record is to Smith (U. S. Patent Publication No. 2002/0147668), Aikens (U.S. Patent No. 6,216,113) and Bennett (U.S. Patent No. 5,146,344).

The Examiner agrees with the remarks by the Applicant submitted July 16, 2009. In regard to independent claims 1, 8, 15 and 22, "...all claims include limitations not taught by Smith, and which limitations advantageously teach administrative control over reporting intervals and timing which does not require a poll of devices for information, placing the reporting timing and duration as the responsibility of each device in accordance with preset timing. In addition, an administrator has an ability to set parameters for filtering the available data before it is collected. The deficiencies in the teachings of Smith relative to the amended claims are not remedied by any additional teachings of Aikens, which is cited relative to teaching particular information that is reported from the auditron that forms the subject thereof."

None of the prior art of record remedies the deficiencies found in Smith, Aikens and Bennett. Furthermore, neither the prior art, the nature of the problem, nor

knowledge of a person having ordinary skill in the art, provide any reasonable rationale to combine prior art teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. "Konica Minolta first MFP manufacturer and distributor awarded new EcoLogo certification." *Canada NewsWire* 15 April 2009 ProQuest Newsstand, ProQuest. Web. 17 Sep. 2009.
